Gentlemen:

Your favor of the 30th of June at hand, and we must say that we do not feel responsible for the condition of your die; it is always understood between our customers and ourselves, when we are using or holding dies for them, that they are entirely at their risk, and any accident that happens must be upon the responsibility of the owner of the die.

We do not believe that this accident was due to any carelessness or fault of ours, and are quite sure that when the die left our place last time it was in perfect condition.

We await your further reply.

Very truly yours,

Chas. J. Cohen & Son
